**Summary of reasons
for classification:**

The computer image file *D1F18540-22B1-4E3A-A42A-CO986748C113.bmp* is classified as:
Objectionable.

The publication is objectionable because it promotes and supports the exploitation of young persons for sexual purposes.

The image depicts a boy in his early to mid-teenage years in a sexualised pose that has been deliberately constructed for the camera and is intended for the sexual titillation and arousal of adult viewers. Such images encourage viewers to see young persons as sexually desirable and available for adult sexual gratification. The effect is to validate a sexual interest in young persons and encourage their sexual exploitation.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention that publications that promote and support the exploitation of young persons for sexual purposes are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of young persons for sexual purposes.
